this book offers a novel perspective on the intersection of translation and narration in literary translation by investigating how three translations of shuihu zhuan present the original narrative mode to the target readership in terms of four narrative elements voice commentary point of view and motif in different periods of history it not only validates but also quantifies the differences in strategy making patterns between translators as well as between different narratological categories the

established theoretical frameworks including a narrative descriptive model and a sociological explanatory framework and the data collected may provide methodological and empirical support for further studies on shifts of narrative features in translation the tendencies manifested by different translators and identified by the study may also shed new light on the teaching and learning of translation skills the book offers a valuable reference guide for scholars practitioners translators and graduate students in the fields of e g language translation literature and cultural studies and for anyone with an interest in chinese classical literature chinese english translation narrative studies or cross cultural studies

patristic literature in arabic translations explores the arabic translations of the greek and syriac church fathers focusing on those produced in the palestinian monasteries and at sinai in the 8th 10th centuries and in antioch during byzantine rule 969 1084 these arabic translations preserve patristic texts lost in the original languages they offer crucial information about the diffusion and influence of patristic heritage among middle eastern christians from the 8th century to the present a systematic examination of arabic patristic translations sheds light on the development of muslim and jewish theological thought contributors are aaron michael butts joe glynias habib ibrahim jonas karlsson sergey kim joshua mugler tamara pataridze alexandre roberts barbara roggema alexander treiger

how could a community of 2000 3000 viking peasants survive in arctic greenland for 430 years ca 985 1415 and why did they finally disappear european agriculture in an arctic environment encountered serious ecological challenges the norse peasants faced these challenges by adapting agricultural practices they had learned from the atlantic and north sea coast of norway norse greenland was the stepping stone for the europeans who first discovered america and settled briefly in newfoundland ca ad 1000 the community had a global significance which surpassed its modest size in the last decades scholars have been nearly unanimous in emphasising that long term climatic and environmental changes created a situation where norse agriculture was no longer sustainable and the community was ruined a secondary hypothesis has focused on ethnic confrontations between norse peasants and inuit hunters in the last decades ethnic violence has been on the rise in eastern europe the middle east and parts of africa in some cases it has degenerated into ethnic cleansing this has strengthened the interest in ethnic violence in past societies challenging traditional hypotheses is a source of progress in all science the present book does this on the basis of relevant written and archaeological material respecting the methodology of both sciences

this monograph is devoted to the cross linguistic profile of subjects in early modern germanic languages the typologically complex question of subject criteria is addressed in a functional framework relying on recent developments in construction grammar the set of data is extracted from a parallel corpus made up of the 1587 german chapbook about the life of dr faustus and its english dutch and danish translations all of which had been published by 1592 at that time the syntactic features of

english subjects were still comparable to continental languages like danish facilitating the inclusion of english in a cross germanic analysis the analysis makes use of two comparative concepts of subjecthood argumental subjecthood centred on the argument structural characteristics of subjects and informational subjecthood which corresponds to the syntacticization of information structural properties subjecthood is defined as a labile multi level configuration of argumental and informational parameters this approach sheds new light on notorious tricks of germanic syntax such as oblique subjects expletives scrambling and subjectless passives

this edited volume is brought out from the contributions of the research papers presented in the international conference on data science and business analytics icdsba 2017 which was held during september 23 25 2017 in changsha china as we all know the field of data science and business analytics is emerging at the intersection of the fields of mathematics statistics operations research information systems computer science and engineering data science and business analytics is an interdisciplinary field about processes and systems to extract knowledge or insights from data data science and business analytics employ techniques and theories drawn from many fields including signal processing probability models machine learning statistical learning data mining database data engineering pattern recognition visualization descriptive analytics predictive analytics prescriptive analytics uncertainty modeling big data data warehousing data compression computer programming business intelligence computational intelligence and high performance computing among others the volume contains 55 contributions from diverse areas of data science and business analytics which has been categorized into five sections namely i marketing and supply chain analytics ii logistics and operations analytics iii financial analytics iv predictive modeling and data analytics v communications and information systems analytics the readers shall not only receive the theoretical knowledge about this upcoming area but also cutting edge applications of this domains

the pivotal moments in the old testament series helps readers see scripture with new eyes highlighting short key texts pivotal moments that shift our expectations and invite us to turn toward another reality transformed by god s purposes and action the book of jeremiah tells the story of a prophetic mission that seems doomed to fail god instructs jeremiah to call to account a people who refuse to turn from their unfaithfulness until it is too late and they encounter destruction at the hands of the babylonians yet underlying the themes of warning and judgment is a steady refrain god s desire to draw god s people back into covenant even when things seem past the point of no return what lessons can contemporary readers draw from the narrative of a stubborn people who cling to their exploitative ways and a god who even so relentlessly pursues them in returning from the abyss walter brueggemann explores the historical and literary context of the book of jeremiah to illuminate the dual themes of israel s long walk into and out of the trauma and devastation of exile throughout brueggemann points out the role of the prophet in overturning a people s illusory sense of security in unjust structures that are not of god and leading those same

people toward the hope of restoration and return he also highlights the persistent themes of empire self sufficiency and withholding from neighbor that inform the narratives of both israel and american exceptionalism and examines how the holiness of god is at work in untamed historical processes that point us toward a costly hope for a just economic and political future
